## A VERTICALLY INTEGRATED COMPANY

Bridgeview offers a unique value offering through our affiliated companies that allows for efficient transaction of a diverse set of deals.

Bridgeview is a vertically integrated commercial real estate organization, with core competencies in development, construction, property management and capital formation. With Bridgeview Construction as one of our verticals, we are the general contractor on our own projects. Being a developer that builds means we focus more attention to detail in the construction process.

# INVESTMENT CRITERIA

Bridgeview has developed a disciplined investment approach that combines the experience of its team of real estate professionals with a structure that emphasizes thorough market research, stringent underwriting standards and a robust risk analysis. The management team has collectively acquired, originated, structured and / or managed billions of dollars of commercial real estate investments over numerous real estate cycles.

Bridgeview intends to use financial leverage to provide additional funds to support our investment activities. Bridgeview, through its subsidiaries, generally seeks to borrow on a non-recourse basis in amounts that we believe will maximize the return to our investors.

*Diversification of strategy and asset type, allows us to seize opportunistic investments, while still preserving wealth via sustainable risk adjusted returns.*

## QUALITY ASSETS

Focusing on income producing properties with sustainable competitive advantages and strong cash flow generation

## CASH FLOW DISTRIBUTIONS

Targeting assets that our team believes are selling at a discount to their long term potential

## LONG TERM PARTNERSHIPS

Providing investors an opportunity to grow with us as emerging managers into an institutional brand over the next 40 years

## UNDERVALUED OPPORTUNITIES

Providing cash flow distributions and financial reporting through our efficient portfolio management software

# INVESTMENT OVERVIEW

Bridgeview invests opportunistically to acquire and develop income-producing commercial real estate. Our portfolio is principally comprised of properties located in the Texas markets but does also include investments throughout the United States on a selective basis with a focus on Sunbelt States

Our projects include mixed use land development, ground up construction, value add renovation, and the acquisition of properties leased to a single tenant on a long-term net lease basis.

Bridgeview focuses on a diverse range of property types, including multifamily, office, industrial, retail assets, as well as specialized categories like medical offices, student housing, senior living, data centers, hotels, and storage facilities.

## DEVELOPMENT OVERVIEW

## ACQUISITION OVERVIEW

*\*Bridgeview's target investor return is net of fees*

# PROJECT TYPES

---

## GROUND-UP CONSTRUCTION

Bridgeview Construction has grown considerably in size in recent years with the acquisition of key personnel. This intentional growth developed as the undersupply of housing in Texas became more pronounced. The main focus for our ground up construction pipeline is in Class A multifamily development.

## MIXED-USE DEVELOPMENT

Bridgeview has key partnerships in place which allow for mixed use developments with multiple product types complementing each other in the same environment. These property types could include multifamily, office, industrial, senior housing, medical, hotels and single family homes.

CARRIAGE HOMES ON THE LAKE - GARLAND, TX

## DELAWARE STATUTORY TRUST (DST)

DSTs are unique real estate investment vehicles that allow a group of individual investors to purchase fractional interests in large commercial real estate assets that typically would be well beyond their financial reach as solo investors. DSTs are offered by sponsors who professionally manage the assets for the fractional/passive investors in 1031 exchange.

## LAND DEVELOPMENT

Bridgeview does short-term pre-development land offerings which fund the acquisition of land and the pre-development work needed to break ground or sell lots.

## NET LEASE

Triple net (NNN) investments are often considered the most hands-off, stable and secure CRE investments. They are viewed as long-term investments and are often purchased with 10 or more years left on the lease. Many risks and obligations normally associated with real estate ownership, such as maintenance, repairs, leasing and management are the responsibility of the tenant.

## VALUE ADD RENOVATION

Value Add Multifamily renovation projects have historically been one of our core businesses. Due to recent cap rate compression these projects have become less economically viable. We still believe in this model, but need acquisition pricing to return to realistic levels.

## OPPORTUNITY ZONE FUND

A Qualified Opportunity Zone Fund is an investment vehicle that holds at least 90% of its assets in a Qualified Opportunity Zone property. These Funds provide multiple tax benefits for capital gain investors.

# TEXAS HOUSING DEMAND

---

People from all over the country continue to flock to Texas to live, work, and invest in the Texas real estate market. Texas has been the No. 1 growth state in America six out of the last nine years (No. 2 twice) in the U-Haul® Growth Index, which analyzes customer moves. It is estimated that by 2040, the Texas population will reach 45 million.

As a result of high interest rates and the market absorbing a large supply of new units delivered in recent years, multifamily construction starts in Texas are down significantly in 2025, by an estimated 30-40%. The significant decrease in new starts is helping to bring the market toward a supply-and-demand balance. While Texas is no longer experiencing the explosive migration spikes seen during 2020-2022 during the COVID pandemic, demand remains exceptionally strong. Specifically in Dallas-Fort Worth, where BV is located, population projections suggest 10 million residents by 2030 and 12 million by 2050.

As new construction continues to cool and population growth remains positive, most Texas markets are expected to tighten again in 2026-2027. Historically, this leads to higher rents, higher occupancy, and increased asset valuations. Investors entering the market now are positioned to benefit from these long-term fundamentals.

## TEXAS HIGHLIGHTS

---

- 8th Largest GDP in the World, estimated at \$2.7 trillion, ahead of Canada, Russia, Italy, South Korea, Australia, and Brazil
- #1 Best State for Business for 21 Consecutive Years by Chief Executive Magazine

# 1031 EXCHANGE - DST

A **1031 DST** provides a passive 1031 option for investors who no longer want the hassle of direct asset ownership.

A **1031 EXCHANGE** enables real estate investors to defer taxes from profits earned from the sale of investment property by exchanging the proceeds into like-kind property of equal or higher value. This includes capital gains taxes, any state income tax, net investment income tax, and depreciation recapture.

A **DELAWARE STATUTORY TRUST (DST)** is a securitized structure for passive ownership by co-investing into larger institutional-type properties.

DSTs have become popular options for investors seeking to defer those capital gains taxes with a 1031 Exchange. DSTs qualify in the eyes of the IRS tax code as direct property ownership, an eligible “like kind” replacement property.

## BENEFITS OF A 1031 DST

### TAX ADVANTAGES

In addition to the deferral of capital gains taxes, DSTs provides tax advantages such as interest expense and asset depreciation.

### SUPPORTS ESTATE PLANNING

DST rules allow investors to identify heirs who can inherit the investment at a stepped up cost basis.

### INSTITUTIONAL-QUALITY PROPERTIES

DSTs allow investors to acquire partial ownership in properties otherwise out-of-reach.

### LIMITED LIABILITY

DST structure protects investors from personal obligations that go beyond their investment. Loans are nonrecourse to the investor.

### PASSIVE INVESTMENT

Property management is handled by a professional Sponsor.

### DIVERSIFICATION

Investors can place their funds in multiple DSTs to diversify their portfolio by property type, location, or asset class.

*BV DST offerings are sold through broker-dealers and registered investment advisors with a selling agreement with BV Securities*

# INVEST YOUR WAY TO A ROTH IRA

Roth IRAs are preferred retirement vehicles for the benefit of tax-free growth, but there are IRS-mandated limits for high-income earners on contributing to a Roth IRA. However, investors can convert traditional IRA funds over to a Roth IRA. This is commonly called a "back-door Roth IRA". Funds converted from a Traditional IRA become taxable immediately. We can help reduce that.

### PROBLEM

#### HIGH TAXES

Paying current income taxes on the converted amount from a traditional IRA to a Roth IRA as the conversion is taxed as current income

### SOLUTION

#### RE-INVEST THE FUNDS

Invest your traditional IRA into a ground-up construction project and convert at a discounted value due to an interim valuation.

### HOW IT WORKS

#### NEW VALUATION

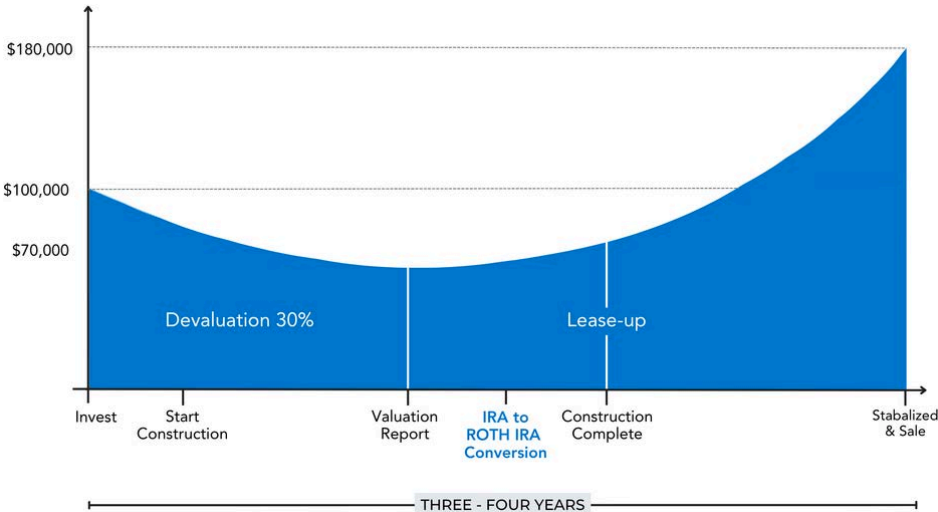

Upon starting construction a new valuation is issued with a reduced value, allowing for a Roth conversion at a discount. To visualize this, some ground-up real estate projects have what is called a "J" curve when it comes to their valuation. See the chart below.

## A ROTH CONVERSION THROUGH CONSTRUCTION PROJECT

Investing in a ground-up construction project through a traditional IRA enables an investor to convert to a Roth at a discount, as the third-party revaluation could reduce the value by approximately 30% during the construction phase.

This devaluation can be caused by factors such as illiquidity, lack of transferability, and initial deal costs, among others.

Upon sale at stabilization, the value increases due to the sales price, which is intended to exceed the overall construction cost and creates a profit for investors.

# COMPANY EVENTS

---

## PRIVATE INVESTOR MEETINGS

We hold investor events in various cities around the country. These Investor only meetings consist of a private lunch presentation and Q&A.

Key members of the Bridgeview team travel with us to educate investors on the state of our development projects and to share industry insights with the group. These meetings provide a great way to interact with the team and ask questions in a comfortable setting.

## SITE VISITS

Investing in BV's real estate projects provides opportunity to see your investment up close during a site visit. Depending on the state of the project, we can walk the active construction site with you and visit with the superintendent who is running the job.

In 2025, the team traveled to Mansfield, TX, and reviewed construction progress on our development project, 'The Alexander'. In October, BV hosted a due diligence event for our DST in Sacramento, CA, inviting financial advisors to travel to the property for a site tour.

## NETWORKING EVENTS

We host various social gatherings around the country where our investors, and their guest(s) are invited to join us. This is a great opportunity for investors and those considering an investment to meet us and speak to our team as well as to connect with one another.

## CONFERENCES

In 2025, BV attended 6 conferences, including ADISA (Alternative and Direct Investment Securities Association), FactRight (Due Diligence), TNDDA (National Due Diligence Alliance), and the Best Ever Conference (BEC).

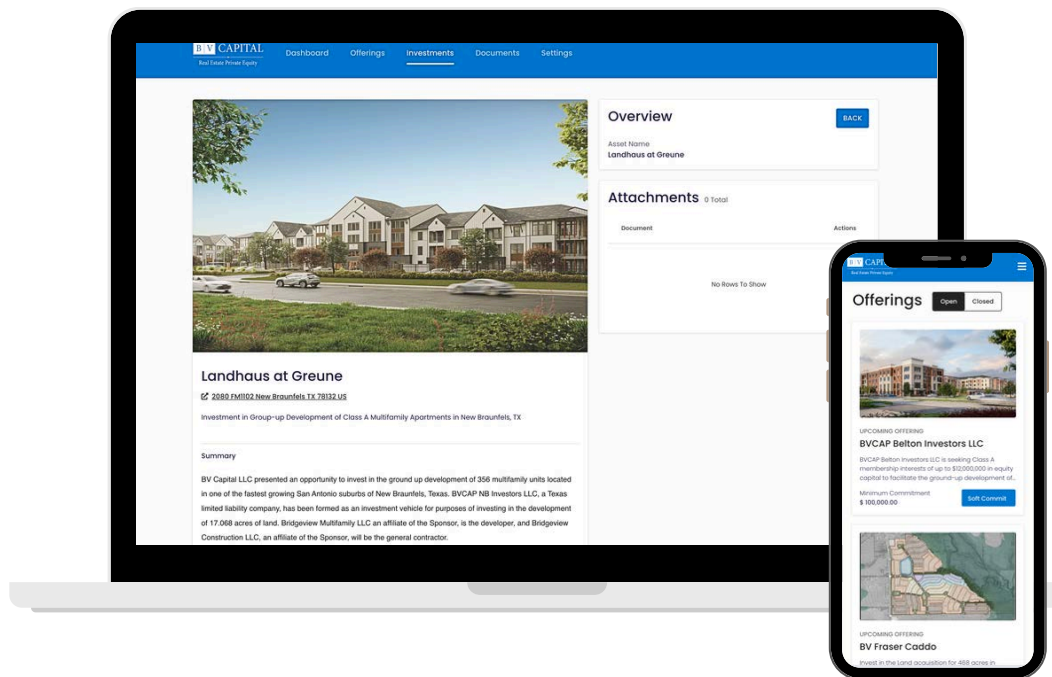

BV Capital was selected to be one of the presenters at the BEC conference's "Pitch Slam" event, where Ross Curtis educated attendees on our upcoming Mercantile Lofts multifamily deal in Arlington. The photo to the right is from this event.

This document may include content relating to certain securities, which are currently or may in the future be issued by Bridgeview Real Estate, LLC or other Bridgeview affiliates. Any such content does not constitute an offer to sell or a solicitation of an offer to buy any of the Bridgeview Real Estate projects.

These statements are not guaranteeing future performance and undue reliance should not be placed on them. Such forward-looking statements necessarily involve known and unknown risks and uncertainties, which may cause actual performance and financial results in future periods to differ materially from any projections of future performance or result expressed or implied by such forward-looking statements. Future performance or results are not an indication of any past results.

Although forward-looking statements contained in this presentation are based upon what management of the company believes are reasonable assumptions, there can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Bridgeview Real Estate, LLC undertakes no obligation to update forward-looking statements if circumstances or management's estimates or opinions should change except as required by applicable securities laws. The reader is cautioned not to place undue reliance on forward-looking statements.
